## ABOUT THE SIMMONS® BEAUTYREST® LINE

Since 1925, Simmons has been refining the Beautyrest® mattress to provide restorative, rejuvenating sleep. Each Beautyrest® mattress is constructed with our original Pocketed Coil® springs to virtually eliminate motion transfer, making it the perfect bed for couples. The Pocketed Coil® spring is made of heavy gauge steel, pre-compressed, then placed in a durable, non-allergenic soft fabric pocket. Pocketed Coil® springs work independently to reduce motion across the sleep surface, providing undisturbed rest. Pocketed Coil® springs also respond to the body's profile for individualized comfort and support.

There are three levels available in the Beautyrest® line:

### Beautyrest® Classic

■ MSI LEVEL 1

- Features 800 Pocketed Coil® springs.
- Classic Edge Support provides two rows of heavy gauge Pocketed Coil® springs for a firm seating edge and expanded sleeping surface.
- Plush yet durable Premium Foams enhance comfort, conformability and support.

### Beautyrest® World Class®

■ MSI LEVEL 2

- Features 980 Density Pocketed Coil® springs.
- Ultra 360° Foam Encasement provides sleeping comfort right to the edge.
- Features Premium Foams including latex and memory foam.
- Luxurious fabrics made with natural fibers enhance the sleep surface.

### Beautyrest® Exceptionale™

■ MSI LEVEL 3

- 1960 Density Pocketed Coil® springs provide our highest level of motion separation.
- Two Story Coil™ on Coil construction features a layer of plush Pocketed Coil® springs that conform to the body's shape atop a layer of firm Pocketed Coil® springs to provide ultimate support.
- Ultra 360° Foam Encasement provides sleeping comfort right to the edge.
- Features Premium Foams including latex and memory foam.
- Luxurious fabrics made with natural fibers enhance the sleep surface.

### Motion Separation Index

The MSI level rating is an ideal way to simplify the purchase decision. The higher the MSI level, the better the motion separation.
